Guide students in Pre-reading step

Ask learners to tell you their favourite colours, foods and sports. You will need to model the language construction for them.

a) Start by pointing to something you are wearing, and saying: "My favourite colour is blue/pink/green (or whatever colour you are wearing)." Then ask about one third of your class to say what their favourite colour is. In order to develop their vocabulary, use one of these methods. Either have a colour chart in the classroom, with the English words on it. Or allow learners to use their home language, and you say the English word, and write it on the board.

If your class is struggling with vocabulary, then you can simplify this by writing some of the basic colours on the board (red, green, orange, yellow, pink, blue, brown, white, black). Then get learners to repeat after you: I like _____.

b) Now move on to talking about food. Again start by saying what you like to eat. Then ask the next third of the class to say what they like to eat. As before, you can simplify this by getting the class to repeat sentences after you.

c) Finally, write the words running, soccer, netball and swimming on the board. Ask the learners who have not yet spoken to tell you which one of those activities they like.
