There are many ways to become a better listener is to practice "IOE English listening skill". This is where you make a conscious effort to hear not only the words that another person is saying but, more importantly, try to understand the complete message being sent.

In order to do this you must pay attention to the other person very carefully. You cannot allow yourself to become distracted by whatever else may be going on around you, or by forming counter arguments that you'll make when the other person stops speaking. Nor can you allow

yourself to get bored, and lose focus on what the other person is saying. All of these contribute to a lack of listening and understanding.
